EDUCATIONS

Bhagwan Parshuram Institute of Technology | Rohini, Delhi

Sep 2023 - Present

Bachelor of Technology

CGPA : 8.40

- **Bachelor of Technology**, Computer Science and Engineering

Delhi Public School | Jammu, J&K

Apr 2011 - Mar 2023

Higher Secondary

Percentage : 91%

PROJECTS

RescueNet | 🐙 Github

Developer

- **Engineered an offline-first peer-to-peer network layer** using **Go** and **Goroutines**, bypassing standard ISP infrastructure to enable reliable communication in disaster zones.
- **Integrated mDNS-based service discovery**, reducing peer handshake latency by **40%** and enabling decentralized, self-healing network topologies.
- **Optimized concurrent data streams** and fault-tolerant packet delivery, achieving a **99.9% message delivery success rate** under simulated high-packet-loss conditions.

Technologies / Tools Used : Go, mDNS, Peer-to-Peer Networking, TCP/UDP

FixmaDesign AI | 🌐 Website

Developer

- **Developed a generative AI-wrapper application** with **Next.js 16** and **OpenRouter**, automating mobile app UI generation and reducing prototyping time by approximately **60%**.
- **Designed dynamic prompt-engineering pipelines** to transform natural language inputs into responsive, production-ready frontend architectures.
- **Optimized component-based rendering** and state management, ensuring seamless, low-latency UI/UX interactions across diverse device screen sizes.

Technologies / Tools Used : Next.js 16, OpenRouter

WorkQueue | 🐙 Github

Architect

- **Architected a scalable distributed task queue** using **Go** and **Redis**, processing over **10,000** background jobs per minute with **<50ms** latency.
- **Implemented** a resilient publisher-subscriber (Pub/Sub) messaging system with exponential backoff retry, ensuring **zero data loss** during simulated worker node failures.
- **Engineered** RESTful APIs and observability pipelines for real-time worker monitoring, reducing debugging time for asynchronous execution by **30%**.

Technologies / Tools Used : Go, Redis, Distributed Systems

SKILLS

Databases :	PostgreSQL, MongoDB, Redis
Frameworks & Libraries :	Node.js, Express.js, Next.js 16, OpenRouter, Prisma
Languages :	English, Hindi
Programming Languages :	Go, C/C++, TypeScript, JavaScript, SQL, Python
Soft Skills :	Communication, Teamwork, Adaptability, Leadership
Tools & Platforms :	Docker, Kubernetes, CI/CD pipelines, Linux, Git, AWS
